

1. User Authentication

- User can register and login securely.
- Session management works properly.

The image shows the 'AI Interview Coach' interface. At the top, the title 'AI Interview Coach' is centered, with the subtitle 'Practice interviews with AI and improve your performance.' Below this are four main navigation buttons: 'Enter Role' (with a target icon and subtitle 'Select your target job role'), 'Get Questions' (with a question mark icon and subtitle 'AI generates interview questions'), 'Answer' (with a pencil icon and subtitle 'Respond like real interview'), and 'Feedback' (with a line graph icon and subtitle 'Get score & improvements'). In the center, there is a 'Login' form with a lock icon, 'Username' and 'Password' input fields, a blue 'Login' button, and a 'Create account' link below it.

2. AI Aptitude Round

- System generates AI-based aptitude MCQs.
- User can answer questions.
- Score is calculated automatically.

The image shows the 'AI Aptitude Round' interface. It displays 'Question 2 of 10'. The question text is: 'A can do a work in 15 days and B can do the same work in 20 days. How long will they take to complete the work together?'. Below the question are four radio button options: A, B, C, and D. Option C is selected, indicated by a blue border and a blue dot. At the bottom, there is a blue 'Next Question' button.

3. AI Technical Interview

- AI generates technical questions based on:
 - Job role

- Resume skills
- User answers are evaluated by AI.
- Score out of 10 is generated.
- Technical feedback is shown.
